

## Stand Up Eleven

"Walking on water"  
Program: SUP boards

Finally a real all round Stand Up Paddle board! Many brands have started to make SUP boards before RRD, but this 11" represents the latest development in SUP designs. Easy to paddle, the right board for everyone willing to start to SUP!

### The Stand Up Eleven features:

- The **thin volume profile** and the **generous rocker** in combination with a **wide outline** generate a great stability, but once used in the waves, the board becomes a real wave rider!

Equipped with a middle handle to carry the board, we have used this board opening to extend it with a middle mast box in order to convert the SUP into a very efficient and fun sailboard!

### Rails configuration.

50/50 round edges on the nose area, 60/40 full rails in the middle to improve paddling potential and stability, full 80/20 rails with round TUE in tail area to improve turning potential

### Hull configuration.

Light concave on the nose area with V configuration rail to rail from middle to tail end. Double concave onto the V from the middle section until 60 cms from the tail.

### Fin

US box Fiberglass CNC foiled Dolphin outline 8.5"

### Carbon Paddle.

- Cut-to-length 210 cms
- Full Carbon antiskid matt finish for tubing and handle.
- Micro sanded matt finishing on full carbon paddle.

### Alluminium Paddle.

- Newly developed telescopic adjustable length 180-210 cms
- Fiberglass paddle and handle covered by red gel coating.
- Alu satin tubing

### Technology:

EPS/ HD Glass/ Wood sandwich skin on stepping area with a combination of Glass fibres laminated in Single Shot moulding process. Deck covered with Softskin™

Model	Size	Fin
Stand Up ELEVEN	11' x 31" x 4 1/2"	single dolphin 8.5" us box
