

# WaveVogue MkII

**“Beautiful and more exclusive than ever”**  
Program: Pure wave side

**The Wave Vogue is designed to perform at its best in pure wave conditions, when power, control and acceleration have to be combined in a perfect balance. Power and control on demand. Resistance, durability and the pride to own a great wave sail that will not go unnoticed on the water...**

## FEATURES

The all X-ply body panelling plus tri-ply window of the Wave Vogue creates a surf sail with a combination of a smooth feel with ultimate durability. This smooth feel, combined with Pump-ability, a Focused Power Point and “quickly neutral” handling, makes the Wave Vogue the sail of choice for riders looking for top performance at the highest level in gnarly surf conditions. The Wave Vogue is also an excellent choice for lighter/smaller sailors in any conditions due to its short boom length and soft, forgiving handling. The outline and twist characteristics of the Wave Vogue make it feel lighter and turn tighter in the waves, and therefore ideal to perform in those unforgettable wave sessions.

Size	Boom	Mast	batten	Recomm. Boom	Recommended mast	Top
